

APPROVED CREDIT VENDORS

Capitalend Home Loans will only allow credit report fees to be collected from consumer(s) for one tri-merge credit report that is used to qualify the consumer(s). If a brokerage would like to be reimbursed for credit report fees, the tri-merge credit report that is used to qualify the consumer(s) must be issued by a Capitalend Home Loans approved credit report vendor. Unfortunately, we are unable to process any reimbursement of credit report fees incurred if the credit report is issued by a non-approved Capitalend Home Loans credit vendor. Additionally, all credit reports submitted to Capitalend Home Loans must include Undisclosed Debt Monitoring (UDM).

The following are the current approved credit vendors:

Note: Factual Data legacy issued reports will not be accepted. A legacy report is identified by a report ID that begins or contains letters.
